About Company

Arantek Contracting LLC is a leading electro-mechanical and civil contracting firm dedicated to delivering turnkey engineering, procurement, construction, and maintenance solutions across commercial, industrial, and infrastructure sectors. Combining robust technical expertise with rigorous quality and safety practices, Arantek serves clients who demand performance, reliability, and long-term value.

Arantek Contracting LLC comprises of many professional Engineers who have worked in major projects in Dubai which related to services include road utilities such as power distribution, Substation works, street lighting works and concrete duct bank works.

Arantek Contracting LLC, Safety standard are in line with Authority's - DEWA/RTA/DM, all our workers well trained and follow the local community's safety requirements also.

Arantek Contracting LLC, Have on Machineries and equipment's with Good team to have flexible co-ordination with clients and execute as per the standard requirements and project specifications.

We believe in Sustainable and enjoyable long-term relationships with our clients.

OUR VISION, MISSION & CORE VALUES

VISION

To be recognized as the partner of choice for electromechanical and civil contracting solutions in our markets—renowned for technical excellence, uncompromising safety and on-time, on-budget delivery

MISSION

Deliver comprehensive, integrated electromechanical and civil works that exceed client expectations.

Continuously improve processes, technologies and people to uphold the highest standards of quality and safety.

Foster sustainable partnerships by investing in our workforce, our communities and the environment.

CORE VALUES

Integrity: We operate with honesty, transparency and ethical conduct in every engagement.

Quality: We uphold stringent quality controls from design through commissioning and handover.

Safety: We achieve zero harm by embedding Health, Safety and Environment (HSE) best practices in all activities.

Collaboration: We believe teamwork and open communication drive superior outcomes.

Innovation: We apply continuous improvement and cutting-edge technology to optimize efficiency and performance.

QUALITY POLICY

Delivering quality is about fostering a 'right first time' culture. On site or in the office; everyone is motivated towards quality. We operate zero defects, zero snags policy on all sites.

- All employees are aware that they are responsible for the quality of their own work. All problems are noted and reported to the relevant Contracts Manager. Together we work to provide solutions.
- The effectiveness of the Quality Management System is communicated via mediums such as toolbox talks, memos and notice boards etc. in line with the Company's Health and Safety policy.
- The Quality Objective of the Company is to become and remain our customer's "first choice". This objective will be reviewed periodically and will be achieved if all staff adhere to the procedures set down for carrying out their projects and by getting the project completed right first time. This will be successful by committing the full resources of the company to execute each project in which we are involved and by employing the best staff and ensuring that their prospects are only limited by their own aims and determination.
- The responsibility for ensuring that the requirements of this Policy Statement are kept up-to-date, understood, implemented and maintained throughout the
- Company is delegated to the Contracts Managers overseen by the Director.
- Health and safety at work also forms part of our duty and service to customers and with continuous training and a full understanding of safe working practices as set down by ARANTEK Contracting LLC Health and Safety Manual our legal and moral duty will be fulfilled.
- This policy statement is continuously reviewed and formally updated on an annual basis.

ENVIRONMENTAL POLICY

ARANTEK recognizes that the construction industry can have a significant impact on the environment. ARANTEK is committed to conducting its activities in an environmentally responsible manner. ARANTEK goal is to meet environmental protection standards expected by the community at large and by government, and to strive to exceed those standards. To accomplish this, ARANTEK will

- Develop and maintain a corporate culture of environmental stewardship;
- Develop and maintain an Environmental Management program;
- Conduct Environmental Risk Assessments and prepare project-specific environmental control plans as required;
- Commit to training and educating our staff and promote a culture of minimizing our environmental impact;
- Meet environmental requirements defined by legislation, regulation, government directives, standards, Best Practices and other applicable environmental standards;
- Ensure that planning and operational decision making at ARANTEK considers how our actions impact the environment and how we can manage and actively mitigate environmental impacts;
- Integrate environmental protection into our business by planning activities to avoid or mitigate adverse environmental impacts;
- Ensure that subcontractors and their employees understand and adhere to ARANTEK environmental policy and procedures;
- Conserve resource use by efficient use of energy, by reduction of emissions and discharges, by eliminating unnecessary waste and by recycling where practical;
- Ensure that response to any environmental incidents associated with ARANTEK operations is swift and effective; and
- Work towards continual improvement of our environmental performance and environmental management systems.

This policy applies to all ARANTEK operations and on all ARANTEK worksites.

HSE POLICY

Occupational Health and Safety Policy:

- ✓ ARANTEK recognizes and is committed to provide and maintain a safe, healthy and comfortable work environment for its staff, consumers and other visitors.
- ✓ ARANTEK believes that a well-managed health and safety program is an integral part of good management practice.
- ✓ ARANTEK has a comprehensive OH & S Policy. Staff have an obligation to ensure that they are thoroughly familiar with its content. It is strongly suggested that the policy be carefully read and understood.

ARANTEK Commitment to OH & S:

1. In fulfilling its responsibilities, ARANTEK will

- ✓ Comply with all statutory rules and accepted codes and practices relating to health and safety.
- ✓ Set short- and long-term goals and specific responsibilities in the management of health and safety and Develop OH & S policies, procedures and guidelines.
- ✓ Ensure all line managers understand and take responsibility for the health and safety process in each program area.
- ✓ Provide information, instruction, training and supervision to ensure that staff are aware of safe work practices, emergency procedures and any risks to health and safety in their work environment.
- ✓ Consult with staff and OH & S representative on issues relating to health and safety.

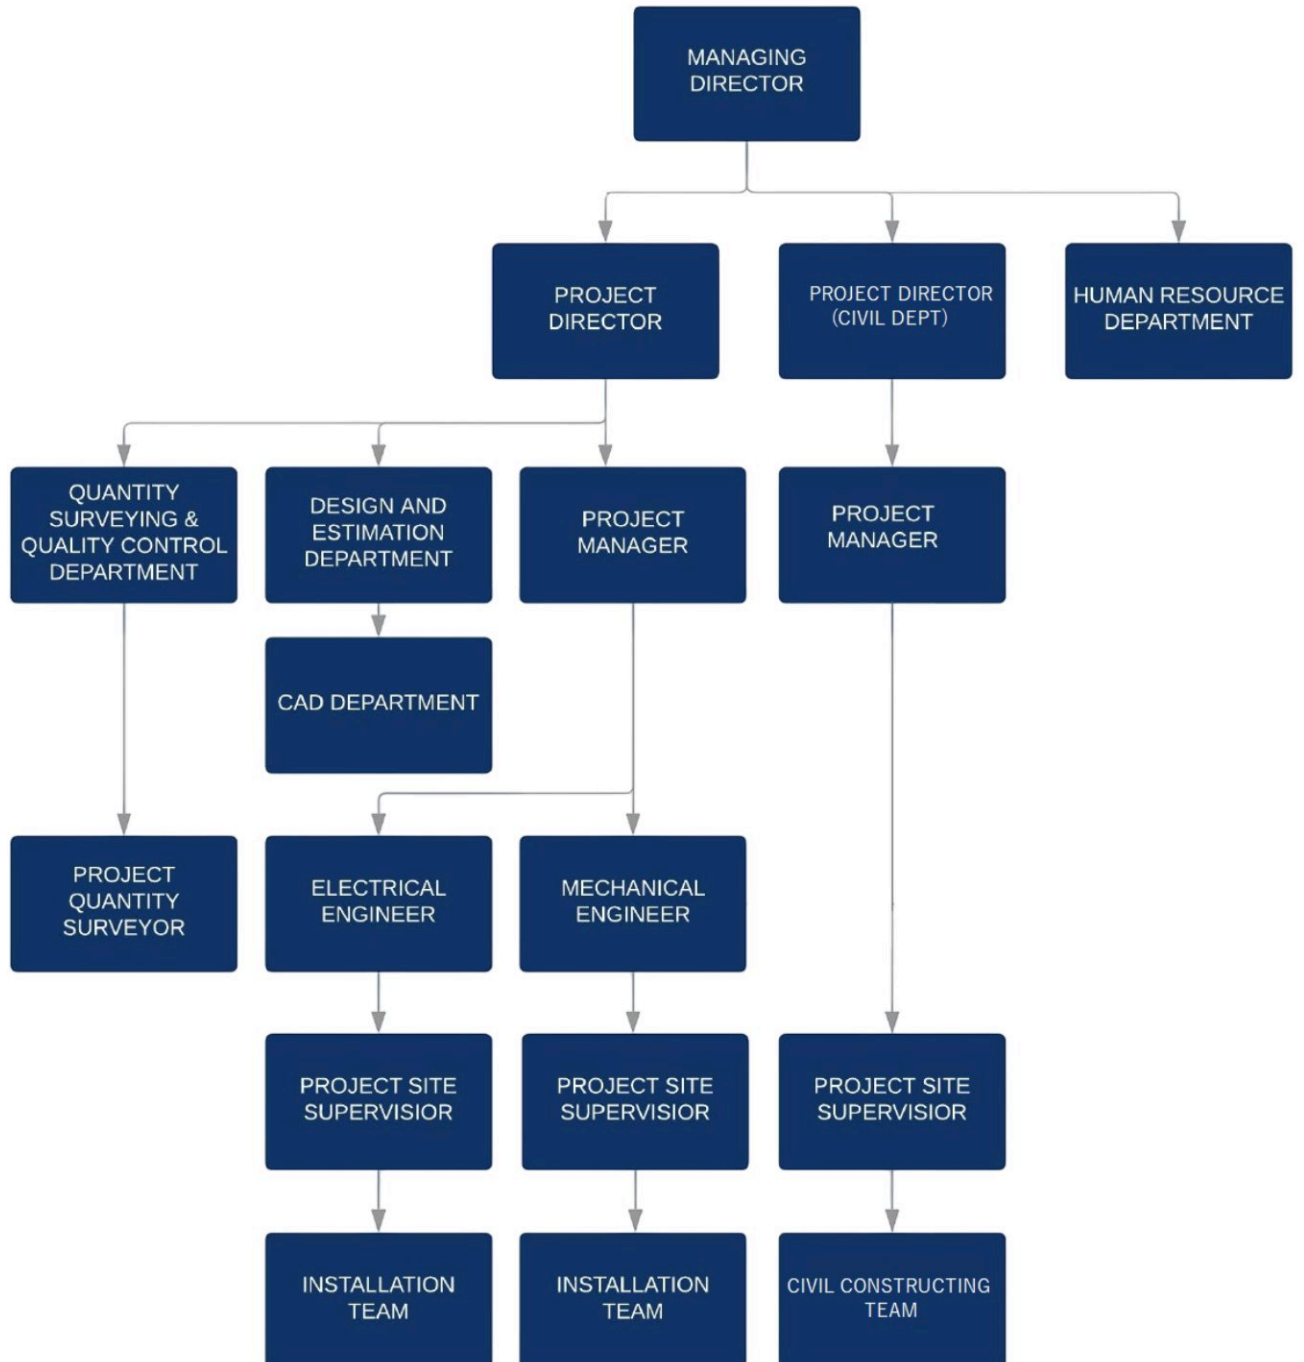

ARANTEK will ensure that management or delegates have practical knowledge of a take responsibility for: - Hazard identification, risk assessment and risk control. - Health and safety legislation, regulations and recognized standards.

- ✓ Specific health and safety issues within the workplace. - Investigation of all diseases, injuries, near misses and accidents and formulate appropriate preventative action
- ✓ Regularly monitor and review the implementation of and compliance with OH & S policies.

ARANTEK is committed to providing:

- ✓ Safe equipment and working procedures including adequate ventilation, safe electrical connections, appropriate resources, clear passageways, etc.
- ✓ Good facilities for the welfare of workers such as ergonomically sound furniture, kitchen and dining area, washrooms, first aid kit.

ORGANIZATION CHART

OUR SERVICES

Electromechanical & Building Contracting Experts in Dubai, UAE

ARANTEK Contracting LLC is one of the leading electromechanical contracting and building contracting companies in Dubai, UAE, offering turnkey construction, MEP, and renovation solutions for residential, commercial, and industrial projects.

With years of expertise in design, supply, installation, testing, commissioning, and maintenance, we ensure high-quality delivery aligned with Dubai Municipality, DEWA, Civil Defense, and international engineering standards.

Our focus is on efficiency, sustainability, and precision engineering, making us the trusted choice for clients who value safety, compliance, and long-term reliability.

Electromechanical Contracting

1. Electrical systems: Power distribution, switchgear, bus ducts, lighting, grounding and cabling
2. Mechanical systems: HVAC, plumbing, firefighting networks, process piping and pumps
3. Instrumentation & control: field instruments, automation panels, SCADA integration
4. Installation, testing & commissioning; preventative maintenance and turnaround services

Civil Contracting

1. Earthworks: Site clearance, grading, compaction and utilities trenching
2. Concrete works: Foundations, slabs, columns, retaining walls and precast elements
3. Structural steel fabrication & erection
4. Infrastructure: Roads, drainage systems, landscaping and hardscape
5. Finishes: Masonry, plastering, tiling, painting and waterproofing.

ARANTEK Contracting Services

ARANTEK provides design-build turnkey for electromechanical & civil solutions that cover the full scope of construction and facility requirements.

We specialize in:

- Residential & Commercial Building Projects
- Warehouses, Stores & Industrial Facilities
- Fabrication & Assembly of Switchgears and Control Panels
- Steel Piping & Structural Steel Works
- Complete Fit-Out & Renovation Projects

Our integrated MEP approach ensures smooth project delivery, energy efficiency, and cost optimization.

Electrical Engineering & Contracting

We handle electrical supply, installation, testing, and commissioning of systems as per DEWA regulations.

- Electrical Design & Installation
- LV Systems & Distribution Panels
- Compliance & Approvals

At Arantek Contracting LLC, we take care of the entire DEWA approval process, ensuring hassle-free execution for our clients.

- Electrical Distribution Systems (SMDB, MDB, LV Panels)
- Load Calculation & Circuit Design
- Wiring, Cabling & Terminations
- Capacitor Banks for Power Efficiency
- Switchgear & Control Panels
- Testing & Commissioning of Electrical Installations

Our DEWA Services Include

- Electrical Load Schedule & Circuit Design Approval
- Building NOC (No Objection Certificate)
- Fit-Out Application & Approvals
- Electricity & Water Connection Approvals
- Electrical & Water Meter Installation
- Temporary Power Supply Arrangements
- Power Load Upgrade (Additional Load NOC)

- Construction Power Supply Solutions
- Permanent Power Upgrade for Existing Facilities

By partnering with us, you save time, reduce paperwork errors, and get approvals faster—helping your project move forward without delays.

Mechanical, Cooling & HVAC Works

- Cooling Systems Installation
- Chillers & Cooling Towers
- HVAC Ducts & Chilled Water Pipes
- FCU (Fan Coil Units), AHU (Air Handling Units), FAHU (Fresh Air Handling Units)
- VRF Systems & Package Units
- Ecology Units for Commercial Kitchens

Piping & Pumping Solutions

1. Chilled Water Piping & Networks
2. Water Pumping Systems
3. SS/Copper Piping & Valve Packages
4. Plate Heat Exchangers & Energy Transfer Stations

Automation & Controls

1. SCADA & BMS System Integration
2. Intelligent Building Management Automation
3. Energy Monitoring & Efficiency Systems

Insulation Applications

1. HVAC Ducts & Chilled Water Pipes
2. Roofs, Walls & Building Envelopes
3. Industrial Tanks & Storage Systems

Plumbing & Sanitary Works

Our plumbing services provide reliable water and drainage systems for residential, commercial, and industrial projects.

Plumbing Services Include:

1. Water Supply & Sanitary Installations
2. Advanced Piping Systems
3. Hot & Cold-Water Distribution
4. Water Heaters & Calorifiers
5. Plumbing Maintenance & Leak Prevention

We ensure an uninterrupted water supply and sanitation efficiency.

Under Ground Cable Laying Work

Our HV cable competencies range from route planning, surveying and engineering to interface handling. We work in desert as well as City areas for underground cabling up to 132kV. We have an experience working right from the route design to keeping in mind various aspects of local regulations and installation requirements etc.

Company has a team of experienced engineers and supervisors to carry out the cable works in all sorts of terrain. Our experience ranges from Surveying to final handing over of the works.

We have in house facility for the excavation, interlock & asphalt removal & re-installation, cable laying and termination works. Currently we are in this field for

- Cable laying works on Turnkey basis up to 33kV
- Cable laying sub contract works up to 132kV
- Cable joint and termination works up to 11Kv

SUBSTATION WORKS

ARANTEK undertakes turnkey medium voltage systems from conceptualization to Commissioning by providing cutting-edge technology across the industry which are tailored to the need of customers. In housed skill, competency, tools and machinery lead, achieve beyond expectations of our clients.

OUR CAPABILITIES

- Supply & installation of 11kV outdoor switchgears
- Supply & installation of 33kV & 11kV indoor switchgears
- Supply & installation of power transformers
- Transportation, unloading and positioning of indoor/ outdoor switchgears, and power transformers
- Supply & installation of earthing system
- Supply & installation of lightning protection system
- Supply & installation of outdoor gantry yards
- Testing & commissioning of indoor/ outdoor switchgears
- Testing & commissioning of protection relays
- Oil filtration and testing of power transformers
- Supply & laying of HT cables and terminations of cables
- Supply & installation of indoor & outdoor lighting solutions

CONCRETE DUCT BANK WORK

A duct bank (or sometimes conduit bank) is a protective system for utility services to keep them safe underground. It is made from PVC conduits, which are then protected further by being encased in concrete. Duct banks are used to protect utility cables such as those used for electricity or telecommunications.

ARANTEK Contracting LLC expertise in the concrete duct bank work with skilled engineers and workers who have executed the works all over DUBAI.

STREET LIGHTING WORKS

Turn-key supply and installation of street lighting, landscape, and facade illumination.

Our team has all the necessary licenses and permits for public mountaineering and high altitude work, as well as a wealth of experience that allows us to perform these works in a short time.

INSTALLATION

- To Mark the locations on the respective place before installing the Poles & Feeder Pillars
- Installation shall be carried out under the supervision of ARANTEK and as per the Shop drawings approved by Consultant & RTA with all necessary care and precautions.
- Fix the Luminaries with proper recommended torque tightness (according to the size of bolt & Nuts) prior to installation of Poles.
- Installation of Poles shall be carried out with proper foundation bolts to be tightened to the torque level. Feeder Pillars shall be installed above the foundation and foundation level shall be checked with spirit level prior to the installation.
- Earthing of Poles & Feeder Pillars shall be carried out as per the earthing layout plan drawings.
- Final alignment of Poles after the installation shall be checked with spirit level and visually.
- Ensure that the area is clean and tidy from all unwanted packing materials and others after the installation works.
- Insulation resistance shall be checked on cables as per the Test format approved by Consultant/RTA to ensure the healthiness of Cable insulation. Calibrated 1000VMegger shall be used for checking of Insulation Resistance of the cable.
- Earthing resistance shall be checked on the individual copper earth rod at Feeder Pillar and end poles as per the Test format approved by the Consultant/RTA.
- After testing, cables shall be connected at the Feeder Pillar terminals and Poles as per the approved Single Line Diagram and ensure the Street Lightings are fit for commissioning.

Permanent Power supply shall be obtained from DEWA for the Feeder Pillars as per DEWA procedure.

NOC SERVICES

NOC is obtained from client's requirements from various authorities-DEWA, RTA, DU, and ETISALAT.

- LV Temporary & Permanent construction supply
- HV Temporary & Permanent construction supply
- DEWA Substation demolition NOC services
- DM Substation demolition NOC services
- RTA TSPS NOC services

Mechanical sealing and installation works

A mechanical seal is a device that helps join systems and mechanisms together by preventing leakage containing pressure, or excluding contamination.

ARANTEK offers comprehensive sealing systems for projects that require reliable solutions for the most critical infrastructure. No matter the environment you're working in, NWC can provide stock and custom mechanical seals, sleeve seals and accessories to ensure cables, pipes, and conduits remain protected from water or pest intrusion.

We offer everything from sealant for outside pipes to custom mechanical seals for Conduits within substations. Our range of products, including mechanical seals, is meant to protect mission-critical equipment for the long term, and can be customized to fit whichever size of conduit you're working with.

Fit-Out & Interior Contracting Works

False Ceiling & Partitioning

1. Gypsum, Acoustic, Metal, & Decorative False Ceilings
2. Custom Suspended Ceilings with Lighting Integration
3. Lightweight Gypsum Partitions & Fire-Safe Walls.

Carpentry & Wood Flooring

1. Custom Furniture, Wardrobes & Doors
2. Parquet, Hardwood, Engineered & Laminate Flooring
3. Decorative Wood Finishes

Interior Decoration

1. Modern, Classic & Luxury Interior Designs
2. Wall Finishes, Ceiling Designs & Custom Furniture
3. Lighting, Textures & Material Integration.
